- Edit the information.

Table Rate

Enable Table Method
Do you want to offer table rate shipping?

True
 False

Shipping Table
The shipping cost is based on the total cost or weight of items. Example: 25:8.50,50:5.50,etc.. Up to 25 charge 8.50, from there to 50 charge 5.50, etc

Table Method
The shipping cost is based on the order total or the total weight of the items ordered.

weight
 price

Handling Fee
Handling fee for this shipping method.

Tax Class
Use the following tax class on the shipping fee.

Shipping Zone
If a zone is selected, only enable this shipping method for that zone.

Sort Order
Sort order of display.

Tax Class: Select "GST Shipping Class" as your Tax Class. Depending on where your customers live, by selecting "GST Shipping Class", the receipt will indicate the appropriate tax on the shipping fee. If your customers live outside of Canada, no shipping tax will be applied. If your customers live within Canada, the appropriate provincial tax (GST/PST/HST) will be applied to the shipping fee.

Shipping Zone: The permission to allow only a certain area to use this payment of shipping. Areas other than the selected area are restricted to use this form of payment.

4.3 Order Total

- The information you would like the receipt to display.
- Sort Order refers to the order in which you want the information to be placed.

Order Total Modules

Modules	Sort Order	Action
Low Order Fee		
Shipping	2	
Sub-Total	1	
Tax	3	
Total	4
